From the Desk of Rabbi Steinmetz

Dear Friends,

As we prepare to usher in the High Holidays, we look forward with gratitude and hope to a season of renewal, connection, and Jewish pride.

The recent attack on the Downtown Chabad Center deeply shocked our community. At the same time, I have been tremendously moved by the outpouring of concern and the many people who reached out asking how they could help.

I believe the strongest response is to add light. We should never be afraid or ashamed to practice our traditions openly. When we proudly live as Jews, we bring honor to our heritage and show that hatred will not intimidate or diminish us.

This Rosh Hashanah and Yom Kippur, one meaningful way to express that pride is by attending

synagogue and standing together as a community. If you know someone who may be uncertain about coming, please personally invite them to join us. A warm invitation can make all the difference.

The High Holidays remind us that every individual matters and that each of us has the ability to bring more goodness, kindness, and holiness into the world. When we gather as a community, our collective light shines even brighter.

I look forward to greeting each and every one of you during Rosh Hashanah and Yom Kippur, and to begin the new year together with strength, faith, and joy.

With heartfelt wishes for a Shana Tova U'Metuka,

Rabbi Chaim Steinmetz

Eighth Annual Longevity Symposium

On Thursday, April 23, 2026, participants gathered at Michael's On East for the eighth annual Dr. Schwartzbaum Longevity Symposium, a meaningful tribute to the late Dr. Leonard Schwartzbaum and another outstanding community event. The symposium was chaired by Dr. Barry Stein and presented in partnership with Aviva Senior Living.

This year's theme, "AI and My Health," explored the rapidly changing role of artificial intelligence and advanced technology in medicine. Rabbi Joshua Krisch spoke on "Judaism, AI, Medicine and Moral Limits," offering a thoughtful Jewish perspective on the ethical questions surrounding new technologies. Drs. Scott Perrin and Ryan Harvey discussed the growing role of artificial intelligence in radiology, while Dr. Elliot Chaikof presented "Breaking the Delivery Barrier: Getting Gene-Editing Medicines Inside Cells."

Guests enjoyed an informative and thought-provoking program, along with the exceptional hospitality and cuisine of Michael's On East.

Plans are already underway for next year's Dr. Schwartzbaum Longevity Symposium, scheduled for Thursday, May 13, 2027, once again at Michael's On East. Additional details and the featured topic will be announced in the months ahead.
